THE JOURNAL OF AMERICAN TRAVEL

VOL. 22 · ORIGINAL ARTICLE OPEN ACCESS

Prevalence of State Visits in a Single Traveler: A Longitudinal Cohort Study

A. Traveler, MD

ABSTRACT

Background. Little is known about one traveler's coverage of the United States.

Methods. All states visited since I moved to the US were recorded and grouped into 5 regions.

Results. 22 of 50 states (44%) were visited, with presence in 5 of 5 regions. Southwest showed the highest coverage (100%).

Conclusions. Further travel is indicated. 28 states remain.

Figure 1. States visited, by region.

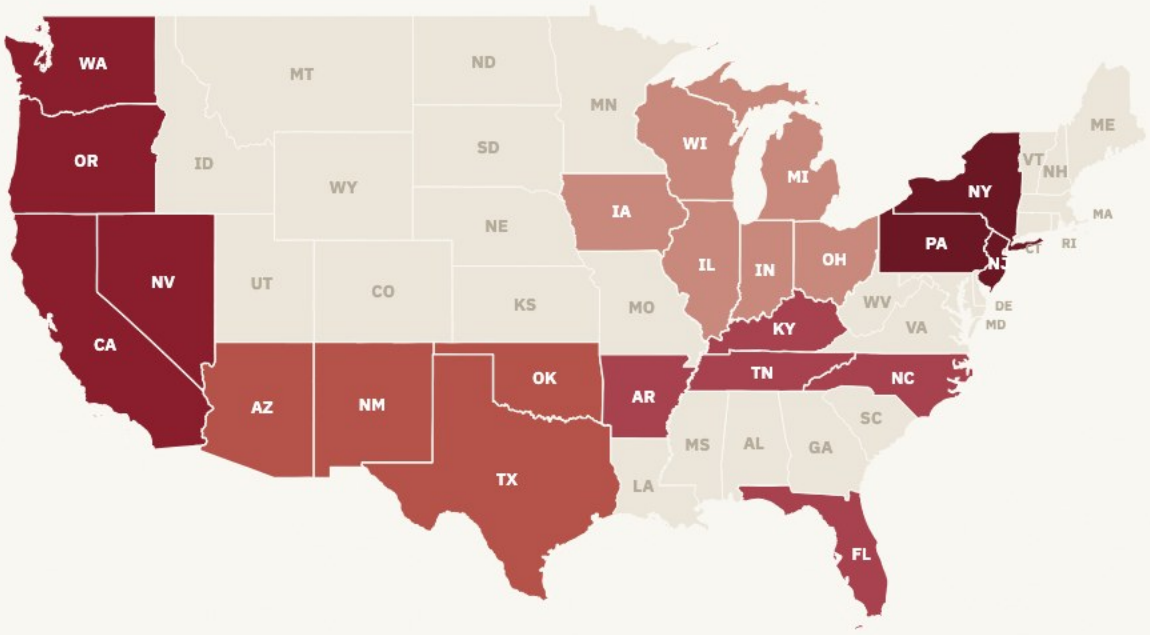

Table 1. Coverage by region.

Region	Visited	Total	Coverage, %
Southwest	4	4	100
Midwest	6	12	50
West	4	11	36
Southeast	5	14	36
Northeast	3	9	33

Total: 22 of 50 states (44%).

DISCUSSION

The Southwest was fully explored, while the Northeast remains the largest opportunity. No adverse events were reported beyond mild jet lag.
